RE: COVID – 19: Telemedicine, Telehealth & Telephone Services (Audio-Only)

Telemedicine and Telehealth Services

Providers in the Preferred Administrators Network can provide telehealth and telemedicine for certain medical and behavioral health services to promote continuity of care for our members. These virtual services allow providers to continue treatment by utilizing telecommunications technology and are considered as an in-office visit.

Telemedicine and Telehealth services do not require a prior authorization with an in-network provider. Copays, deductibles and coinsurance are not applicable to these services for Preferred Administrators members.
