RE: COVID – 19: Telemedicine, Telehealth & Telephone Services

Telemedicine and Telehealth Services

Providers in the Preferred Administrators Network can provide telehealth and telemedicine for certain medical and behavioral health services to promote continuity of care for our members. These virtual services allow providers to continue treatment by utilizing telecommunications technology and are considered as an in-office visit.

Prior authorization is still required for services listed on the [Preferred Administrators Prior Authorization Flyer](#) even if conducted via telemedicine and telehealth.

Copays, deductibles and coinsurance are not applicable to telemedicine and telehealth services for Preferred Administrators members.
